AMERICAN STUDIES SPRING 2027 COURSES

WHAT IS AMERICAN STUDIES?

Our courses examine American cultural life in the past and present with the aim of helping students better understand themselves and their society. We study how Americans have thought about and experienced topics such as race, immigration, and ethnicity; gender and sexuality; film, literature, and creative work; popular culture, gaming, and technology; fashion and body politics; family, childhood, and adolescence; work and leisure; nature, region, and the environment; urban cultures and nightlife; civil rights, cultural radicalism and social justice; emotions, sports and mental health; and monsters, crime, and violence.

American Studies faculty are engaged, award-winning teacher-scholars. Our classes emphasize cultural history from interdisciplinary and diverse viewpoints. In our courses, you'll learn to interpret a range of sources from multiple perspectives and to communicate clearly in speech and writing.

In American Studies classes, you'll encounter and analyze a variety of sources, including novels and autobiographies; movies, comics, games, social media, and television; food, law, fashion, and music; arts, objects, and the built environment. You'll also be exposed to cutting-edge scholarship in the field of American Studies.
